# PARTICIPATING FUNDING ARRANGEMENT™

Will Save You Thousands on your  
Health Care Benefits!

# 9 REASONS TO LOVE THE PFA™

The Participating Funding Arrangement (PFA)™, provided by RSI, is the purest form of insurance because the employer only funds when it is absolutely necessary. With the PFA™, your company pays a lower premium cost and lower out-of-pocket, all while keeping the same coverage.

The PFA™ works by allowing employers and employees to be shareholders in controlling their collective health care cost. This allows the group health plan the ability to create plan assets that they otherwise would have forfeited.
